

CONNECTIONS:

Brown : + voltage (10/24 Vdc)

White : GND

Yellow : selection signal (NOT CONNECT this wire for get PNP signal)

Green : output (PNP)

NPN signal option:

for get NPN signal CONNECT TOGETHER YELLOW (selection signal) and WHITE (GND) wires

FEATURE:

Operating voltage: 10/24 Vdc

Polarity protected : for all electrical connection

Cable length: 1,8 m

Range temperature: -10...70 °C

Protection class: IP54 (IP65 upon request)

Max. output current: 100 mA

Operating status display: Red LED

CONTROL MODALITIES:

with relais system (see "outlines magnetic sensor")
or with RADIA electronic modul SMC
